Subject: RE: Potential Tower Meeting Dates

I'll check on dates.

Things are going slow but we are making progress. Second day of drilling today.

Our plan to go deep to collect samples from the highly contaminated gw zone hasn't been working due to heaving sands clogging the drill rod prior to sampling. We will keep trying.

I will need to stay Friday night and come back Saturday. I can amend my TA when I get back to town if that's OK. If there is a problem with that give me a call. I don't think we will begin air sampling until late Friday or Saturday, and I would like to be present for that.

Bob,

Can you see if the two dates below could work for the tribes and Kozaks (if you see them)?

I hope all is going well.

Hi Sherry,

May 17 & May 26 would work for Margaret.

Thank you.

Jessie,

I spoke to Margaret about the need to check with her on these dates before we do another round of Doodle polling. Can you check her calendar to see what dates could work? See dates in the string below.

Margaret,

Below are the dates that are good for all three DNR participants (John Robinson, Judy Fassbender, and Chris Saari). I haven't checked these dates with Bob yet but Gary said all but the April 15th date are fine with him. All the dates are fine with me.

I planned to work with Jessie to set this up with a new Doodle but I didn't want to propose dates that didn't work for you. Meantime, it might help to have an email from you to get the tribe to forward us some dates or to get them to respond to the Doodle when it comes out.

Note: May 31st is the day after the Memorial Day holiday. I'm not sure that is a real good date for people.

Sherry

Here are the dates that work for DNR, Unfortunately the meeting room at the UW facilities are not available until June. We can look for other meeting facilities in the area.

April 15

May 9

May 17

May 20

May 23

May 26

May 31

June 1

Please let me know if you have any questions.
